## DAVID URIE DEAD.

### Succumbed to Pneumonia After Suffering for Three Weeks.

Sunday morning the people of the town were shocked to learn that David Urie had succumbed to an attack of pneumonia.

About three weeks ago he contracted the disease and had the best medical skill procurable to attend him, but all that could be done for him seemed to fail in giving him relief. For a few days during the time of his illness it was thought that he might recover, but he took a serious turn and nothing done for him was of avail.

David Urie was born in Cedar 53 years ago, and was the son of John Urie of Hamilton's Fort. He never took much interest in public affairs, but was an honest, hardworking man, and was held in respect by his acquaintances. Although not an active church member he had an abiding faith in the Church of Jesus Christ of Latter-day Saints, and died with that faith firmly implanted in his heart.

He leaves a wife, six children and one grandchild, as well as his father and brothers and sisters to mourn his loss.

Funeral services were held in the Tabernacle Tuesday afternoon with Bishop Alex G. Matheson officiating.

The friends and relatives of the family are uniting in extending their sympathies and condolences.

## For the Information

### of Mutual Members.

A number of the members of the Mutuals of the town have been laboring under a mistaken idea about the lectures recently announced in these columns which the Young Men's Mutual of the West Ward is giving. It has been thought by a great many that they were public lectures, but that is erroneous. They constitute a part of the regular class work of the Seniors of the West Ward and are not what might be termed public, although every young man, and old man for that matter, is invited.

During the balance of the year each Sunday night someone will lecture on the lesson given and discussion will follow. However, the regular opening exercises and preliminary program will be held and the classes separate to their respective rooms, and the person chosen to handle the lesson will lecture on it.

## A Word to The Public.

Among the many good things which the people of Cedar City have the opportunity of enjoying there is not one of greater importance than the privilege of attending the Free Public Gymnasium. However, up to the present date the privilege has been seriously neglected and the attendance has been small. We do not know just what to attribute this lack of interest to, but hope it is due to the people not knowing of this work, and no to any indifference toward it.

To like or even appreciate anything we must work with it, and in working with it if our efforts bring us satisfaction we soon grow to like that with which we are working, and class it as a necessity. This fact will hold good in respect to the Gymnasium. We believe there is no person who does not believe that Gymnastics will benefit him. Now if you will only come and see what we are doing, we are sure you will become interested in our work and soon join us.

It is not the Gymnasium's purpose to develop gymnasts, but to bring about better physical conditions among the people.

Don't think because you are seemingly awkward that you are out of place in the Gymnasium. A better thought would be, "I am out of place elsewhere." The work we take up is given to building exercises given to building about at all around.

development. The people in this neighborhood are well-developed in some respects but very lacking in others. Many of their muscles remain almost functionless. We shall endeavor to bring these muscles into play and consequently bring about better results to the human organism.

The work we give is absolutely free,—the only requirement being shoes—but suits are preferred for both girls and boys, and especially for girls. The Gym is opened four nights every week promptly at 7:30 and remains open until 9 p. m. Two nights, Monday and Wednesday, are given to the girls over 16 years of age and two nights, Tuesday and Thursday, are for the boys over sixteen.

I should be glad to work with any or all of you and believe that I can make the work pleasant and beneficial to all if you will only come regularly and promptly.

## Thieves, D-n 'Em.

Some petty sneak thief purloined about 500 pounds of coal from the Record office Monday night of this week. All we have to say is "d-n 'em."

## Stake Priesthood Meeting.

Stake Priesthood meeting will be held in the Tabernacle tomorrow night and all who hold the priesthood are requested to be in attendance. Pres. Marsden and his counsel will be in attendance.

## Our District School.

How few of our parents realize what they are missing when they fail to visit our school and keep in touch with its workings. How can they judge whether their children are progressing or not if they do not know what work the children are supposed to do?

A representative of the Record spent Monday afternoon at the school and was greatly interested in its system and management.

We first went to Principal Dalley's office, where Mr. Dalley gave us an idea of the system of the school. A daily program has been arranged, which each grade follows closely. This program is so arranged that the lighter subjects come first, to avoid deep thinking just after the children have had a meal. Each Monday a teachers meeting is held, which keeps the different classes working in unison. The teachers have to make a weekly report to the Principal, and through these, and his daily visits to the different departments, he is kept in very close touch with the whole.

Mr. Dalley also displayed a new roller-top desk which was added to his office recently.

It was now time for school to commence so we went down to where the children were formed in line to march.

At a point a grade of first grade marched to their room, and then a grade of second grade, and then a grade of third grade, and then a grade of fourth grade, and then a grade of fifth grade, and then a grade of sixth grade, and then a grade of seventh grade, and then a grade of eighth grade, and then a grade of ninth grade, and then a grade of tenth grade, and then a grade of eleventh grade, and
